

TC4 Gr5 Titanium Machined Parts Spring Wire ODM For Marine Engineering

Our Product Introduction

for more products please visit us on titanium-part.com

Basic Information

- Place of Origin: China
- Brand Name: CDX
- Certification: ISO9001:2015 certification
- Model Number: CDX-M-2021-0031
- Minimum Order Quantity: 1 piece
- Price: Negotiable
- Packaging Details: plastic paper inside, plywood case outside
- Delivery Time: 5-35 working days
- Supply Ability: 1000 piece/week

Product Specification

- Name: Machining Titanium Titanium Alloy Parts
Titanium Machining Service
- Keywords: Titanium Spring
- Material: Titanium Gr.1 Gr.2 Gr.5 TC4
- Dimensions: Customized
- Application 1: Motorcycle, Automobile, Racing Car.
- Application 2: Ship Equipment.
- Application3: Electronics Products,
- Application4: Surgical Instruments,
- Anodizing: Black, Gold, Red, Blue, Grey Purple, Etc
- Carburizing: Black Grey Etc.
- Nitrided: Black Grey Etc. Improves Wear Resistance,
Fatigue Resistance, Corrosion Resistance
And High Temperature Resistance
- Highlight: **TC4 Titanium Machined Parts,**
Gr5 Titanium Machined Parts,
ODM Titanium Spring Wire

Product Description

titanium small thin wire spring manufacturer alloy titanium spring die spring
titanium machined parts cnc machining titanium parts titanium processed products

We make kinds of titanium machine parts

Give us drawing, make your drawings and ideas become a reality !

Titanium spring is a kind of mechanical parts used to control the movement of parts, store energy, and measure the magnitude of force.

Because titanium has the characteristics of light weight, high specific strength, and strong corrosion resistance, titanium springs are widely used in chemical, marine engineering, automobile manufacturing and other fields. There are many types of titanium springs: tensile titanium springs, titanium compression springs, torsion titanium springs and so on. The manufacturing methods of titanium springs are roughly divided into cold-rolling methods and hot-rolling methods. The main material of titanium spring is titanium alloy wire. The diameter of titanium wire is generally less than 8mm by cold coil method, and the

diameter of titanium wire is greater than 8mm by hot coil method. The heat treatment of titanium spring can be annealed and pickled according to customer requirements.

Q: Why choose us?

A1: We have 14 years experience for titanium products making.

A2: sample order is acceptable.

A3: lower price, good quality and short delivery time.

A4: The quotation can be made within 24 hours.

A5: ISO9001:2015 certification

A6: Give us drawing, make your drawings and ideas become a reality!

A7: Provide third-party quality inspection reports. **Ultrasonic testing & material test report .**

Terms of trade	EXW, FOB, CIF
Terms of payment	T/T, L/C
Packing	plastic paper inside, plywood case outside.
Delivery time	7-35days
MOQ	1 piece
Business Type	Manufacturer, Foreign Trading
