

Superconductor Square Titanium Clad Copper Bar OEM Gr2 Material For Anode Hanging

Our Product Introduction

for more products please visit us on titanium-part.com

Basic Information

- Place of Origin: China
- Brand Name: CDX
- Certification: ISO9001:2015 certification
- Model Number: CDX-C-2021-026
- Minimum Order Quantity: 5 piece
- Price: Negotiable
- Packaging Details: plywood case
- Delivery Time: 5-35 working days
- Supply Ability: 500 piece/week

Product Specification

- Keyword: Superconductor Titanium Clad Copper Bar Rod For Anode Hanging Rod Customize
- Standard: ASTM B432 GB/T12769-2003
- Size: OEM
- Material: Titanium Gr2 Copper T2
- Shape: Square Or As Order
- Advantage: Acid Resistance High Performance
- Shape: As Drawing
- Highlight: **Titanium Clad Copper Bar OEM, Superconductor Titanium Clad Copper Bar, Gr2 Titanium Square Bar**

Superconductor Titanium Clad Copper Bar Rod for Anode Hanging Rod customize

Product Name:	Factory Supply Titanium clad copper-Clad material:Ti,Zr,Ni,Nb,Ta,SUS304,SUS316 etc
Product Usage:	Metal Industry & Construction Industry
Product Type:	Round & Square & Oblong & Wire
Product Color:	Silver
Product Size:	Customs Setting
Product Design Drawing:	Support(u provide your own design drawing)
Product Delivery:	addcoring to your products quantity
Product Stock:	Stocked

1, Features:

Titanium clad copper bar

Standards: GB/T12769-2003

Coat: Ti,Ni,Zr,Stainless Steel 316L, etc.

Base: Cu(T2,TU2),AL,etc.

Titanium layer: 0.5~3.6mm

Technology: metallurgical bonding by explosive rolled

Shape: Square, Round, Rectangle, Drum and so on ,also can do according to customer's requirement
