

90% Ti Sintering Titanium Round Target Niobium Alloy Ti90Nb10 Material

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: N/M
- Certification: ISO9001:2015 certification
- Model Number: CDX-TB-202115
- Minimum Order Quantity: 5 kg
- Price: Negotiable
- Packaging Details: plywood case
- Delivery Time: 5-35 working days
- Supply Ability: 50000KG/month

Product Specification

- Key Words: Ti90Nb10 Titanium Niobium Alloy Target
Titanium Round Target
- Material: Titanium Niobium Alloy Ti90nb10
- Composition: Ti 90% + - 1% Nb 10% + - 1%
- Conditions: Melting Or Sintering
- Key Words 2: Pure Titanium Target
- Highlight: **90% Ti Alloy Target,
Round Niobium Alloy Target,
Sintering Titanium Niobium Target**

Product Description

Ti90Nb10 titanium niobium alloy target titanium round target

Material: titanium niobium alloy ti90nb10

Composition: Ti 90% + - 1% Nb 10% + - 1%

Conditions: melting or sintering

Requirements: for materials obtained by sintering, it is important to obtain alloys with porosity less than 0.1%

Usually we will provide a quality inspection report like this with the goods, which shows the chemical composition and physical properties

Provide the most accurate data reports
