

Grade 2 Titanium Machined Parts Corrosion Resistance Titanium Tube Polished Surface

Our Product Introduction

for more products please visit us on titanium-part.com

Basic Information

- Place of Origin: China
- Brand Name: CDX
- Certification: ISO9001:2015 certification
- Model Number: CDX-M-2021-0050
- Minimum Order Quantity: 1 piece
- Price: Negotiable
- Packaging Details: plastic paper inside, plywood case outside
- Delivery Time: 5-35 working days
- Supply Ability: 1000 piece/week

Product Specification

- Name: Titanium Tube Titanium Parts Titanium Machined Part
- Keywords: Titanium Tube Titanium Parts Titanium Machined Part
- Material: Titanium Gr.1 Gr.2 Gr.5 Gr.7 Gr.11 Gr.21
- Tolerance: +/-0.005mm
- Surface: Polished, Cleaning, CNC Lathe Surface, Pickled, Bright
- Anodizing: Black, Gold, Red, Blue, Grey Purple, Etc
- Carburizing: Black Grey Etc.
- Nitrided: Black Grey Etc.
- Highlight: **Grade 2 Titanium Machined Parts, Corrosion Resistance Titanium Tube, Polished Titanium Tube**

Product Description**Titanium tube Titanium parts Titanium machined part**

Titanium tube Titanium parts Titanium machined part	
Tolerance	+/-0.005 (customize available)
Surface roughness	Ra0.2-Ra3.2 (customize available)
materials	titanium grade 2 grade 5 ...
processing	CNC turning, milling, drilling, auto lathe, tapping, bushing surface treatment, anodized, etc.
Anodizing	black, gold, red, blue, grey purple, etc
Carburizing	black, grey etc.
Nitrided	black, grey etc.
quality assurance	100% quality check before delivery.
Process titanium parts according sample or drawing.	
Welcome OEM, ODM !	

PACKING

Terms of trade	EXW, FOB, CIF
Terms of payment	T/T, L/C
Packing	plastic paper inside, plywood case outside.
Delivery time	7-35days
MOQ	1 piece
Business Type	Manufacturer, Foreign Trading

Q: Why choose us?

A1: We have 14 years experience for titanium products making.

A2: Provide third-party quality inspection reports.

A3: ISO9001:2015 certification

A4: 24 hours online service & quickly quote and delivery.

A5: Lower price, good quality and short delivery time.

A6: Give us drawing, make your drawings and ideas become a reality!

A7: sample order is acceptable.

Common uses of titanium tubes Titanium tube Titanium parts Titanium machined part

Due to the unique density, strength and corrosion resistance of titanium, it has been used in various applications in different

industries. For high-quality pipe products, compared with other competitive materials (such as superalloy and stainless steel), the use effect of titanium is much better. The density of titanium is about 60% of that of nickel based or steel based alloys, which in turn brings important weight reduction to aviation structures. Compared with ferritic or austenitic stainless steel, titanium has better tensile strength. Titanium has strong corrosion resistance, which can exceed the resistance level of stainless steel.
