

Vacuum Coating Titanium Sputtering Target Grinding Machine Brightened Surface

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: N/M
- Certification: ISO9001:2015 certification
- Model Number: CDX-20220330C
- Minimum Order Quantity: 10 piece
- Price: Negotiable
- Packaging Details: plywood case
- Delivery Time: 5-35 working days
- Supply Ability: 10000KG/month

Product Specification

- Products: Purity Titanium Target
- Key Words: High Purity Titanium Target Titanium Sputtering Target
- Application: Liquid Crystal Display
- Technique: Grinding Machine
- Application 1: Electronic Control Devices,
- Application 2: Laser Memory
- Application 3: Glass Coating
- Surface: Machine Brightened Surface
- Highlight: **Vacuum Coating Titanium Target, Grinding Machine Niobium Sputtering Target, Brightened Surface Zirconium Sputtering Target**

Product Description

Customized multi-specification titanium target 98X45 98X40 Gr.2 TA titanium target Vacuum coating titanium target

We can provide round titanium target, square titanium target, rectangular titanium target, or according to your requirements or drawings.

Tolerance	+/-0.01mm
Surface	Polished, Cleaning, CNC lathe surface, Pickled, bright
Dimensions	according customer's request.
Ti content(%)	99.96% 99.98% 99.99%
Density	4.51g/cm3
Color	titanium original color
Titanium Sputtering Target Target Customizable High Purity	

Provide quality inspection report like this with the goods,
which shows the chemical composition and physical properties

100% quality inspection, quality assurance.
Professional titanium manufacturing experience.
Because we only make titanium, we are more professional in titanium

ISO9001:2015 certification

Friendly customer service and short delivery time.

Processing all kinds of targets for coating:

Metal targets: tungsten target, molybdenum target, tantalum target, niobium target, zirconium target, cobalt target, vanadium target, copper target, platinum target, hafnium target, niobium target, aluminum target, iron rake, chromium target, titanium niobium alloy target, titanium-zirconium alloy target, titanium-tungsten alloy target, titanium-gui alloy target, titanium-aluminum target, nickel-chromium alloy target, aluminum-chromium alloy target, high-purity titanium target, ultra-high-purity titanium target, high-purity nickel target, high-purity tantalum target, polycrystalline silicon Target material, ultra-high purity aluminum target, (99.95%-99.999%),

Classification: Multi-arc ion coating target, titanium flat target, titanium rotary tube target, titanium target back plate, titanium target back tube

Application: Tool coating, decorative coating, electronics industry, flat panel display industry, large area Low-E glass coating, semiconductor, LCD, solar energy industry, optical lens, optoelectronic industry, ceramic binding target, spraying target, etc.

Provide the most accurate data reports
